GM REPORT

Reflections of a GM

Being only relatively new to Lakeside Hash with only 40 Lakeside runs, I was lucky to get a training position on the last committee during E&B's mighty reign. I had been a GM before with Townsville Hash House Harriers – but that was way back in 2004 – when I had youth and vigour on my side.

The year had a spluttering start with what became known as COVID-19 SHUTDOWN 5. We managed to squeeze in a couple of runs before we were afflicted with COVID-19 SHUTDOWN 6! We saw that off and then got on with the hash year.

Some personal run highlights were:

Run 2014 - Oct 27th Cellarbrations, Middle Park – *Pythagorarse* - a bumper turnout (27) to rejoice an end of shutdown and to be with Cooch on his 800th Lakeside run.

Run 2018 - Nov 24th Yarra Bank Reserve, Hawthorn – *E&B* - The St Andrews day run is always a highlight.

Run 2023 - Dec 23rd Wattle Park, Burwood – *Combined Melbourne HHH Club Run* - My 50th Lakeside run in the rarefied company of the other Melbourne GM's.

Run 2027 - Jan 19th Kalmia St, Frankston Heights – Prickly Bush & Deeper - Well worth the trek south.

Run 2024 - May 14th Alpine Hotel, Warburton – Wet Pussy & Cheaper at Krogers - An away run that displayed all of Warburton's natural charms.

I take great pride in that we have had only about 2-3 official meetings - so that goes down as an enormous success.

There has, however, been a high attrition rate ... but that just goes with the danger of the job. Prince (I think), and 4-Pack

will be overseas for the AGPU on Jul 13. Our Man Friday, Wetty P, has

been exiled to Warburton for some minor indiscretion.

I thank my committee for always attending to their core roles and their willingness to help the GM whenever needed.

After Covid Lockdown 6

Ass. Grand Master REPORT

"Well, as someone who only makes it to half the runs, I can definitely say I enjoyed half the year. What started as a new beginning after the "Chaos of Covid" descended quickly again back into the "Chaos of Covid".

A Lockdown straight after our AGPU, out for a week - then straight back into another one had us all wondering when Lakeside would ever be able to get back to hashing. Thankfully, the powers that be lifted restrictions and On-On we went. Through old and new haunts, through city and bush, through On-On's and On-Back's.

My greatest memory of the 12 months of Pythagorarse's tyrannical reign was how we all stuck together through the adversity of the second half of 2021. As someone who lives by himself, I really enjoyed knowing I could rock up on Wednesday nights, and despite all that was happening I knew I

would be surrounded by positive people keen for a laugh and a beer, and maybe even some exercise. Also, as a first-time committee member I am quite proud to say I did absolutely sweet f@#k-all the entire time. Gives me a taste for politics.

PS. The \$3 beers were most excellent!

This report is based on figures from the 11th July 2022. This year we have twenty six paid up members. The hash cash job has not had many complications this year with regards to chasing up memberships or paying

out bills. Our easy going GM, Pythagorarse has made the hash cash job enjoyable.

Most of the accounts this year have been paid through the Bank account with only small bills coming out of the cash float. We have had some very generous hash hares who have been willing set food payments at a set \$5/\$10 donation to maintain COVID safety which has been greatly appreciated by the members. Warburton was our biggest spender for the year – but we managed to break even for the event.

Our income was boosted by the excellent salesman ship of E&B with hash socks and face masks. The Hash Cash is looking forward to another year of happy hashers and would like to remind you all to start saving for next year's subs as they will be due soon. Love to you all

- On On GARGOYLE

BREWMEISTER REPORT

Well, what can you say? Grog was supplied and drank, sometimes a lot and sometimes not so much.

Always a few whingers but that's the hash for you.

I was handed the hash grog from Pointy part of the way into Pythag's reign but Pointy had everything well organised, a process in place and gave tips on where to get the cheapest beer - without going to Aldi! I didn't change

the range of beers or sodas as I know Lakeside does not like change and I couldn't bear to listen to whinging if the selection was changed - God forbid!

The only time I was caught out was at Lethal's run at Gabriella Pizza. It was a warm night and we had a park to stand around in to drink.

Luckily there was a Bottle-O nearby when a slab could be quickly bought. As everyone knows, Lakeside grog prices are the cheapest on the planet so appreciate everyone paying for theirs as they go.

Any margin is to pay for down downs which we didn't have to pay for during Covid as people drank their own. This is now changing as we go back to having down downs (but not sharing cups...).

On On for next year and more fun (and beer...)

LAKESIDE HASH HOUSE HARRIERS

MELBOURNE, AUSTRALIA

Best Run - 2021-2022

Hares: Prickly Bush & Deeper

Date: 19 Jan 2022

Venue: Kalmia St, Frankston Heights

Run #: 2027

A Lakeside pack of 20 was lured down to edge of the universe in Frankston heights with the promise of a top summer run experience. We were not disappointed – a leafy stroll/run around the hills, valleys and nature reserves that surround the abode of Prickly and Deeper. A top drink stop and snacks, an entertaining circle and, the clincher ... magnificent Nosh from the silky culinary skills of Prickly Bush. We left enriched as human beings.

LAKESIDE HASH HOUSE HARRIERS

MELBOURNE, AUSTRALIA

Best Special Run - 2021-2022

Hares: Wet Pussy & Cheaper at Krogers

Date: 13-15 May 2022

Venue: Alpine Hotel, Warburton

Run #: 2044 & 2045

Lakeside loves an away run and the charms of Warburton in Autumn were spruiked by Wetty P and Cheaper. By frequenting the front bar relentlessly, the hares were able to secure a great deal at the Alpine Hotel. Rainy weather loomed but managed to stay away as we trekked high into the hills to a drinkstop followed by a leafy traverse then a punishing downhill. The champagne drinkstop went on for hours with no complaints. A top circle, dinner and a gentle walk the next day made for a great weekend. Thank you hares for a great experience.

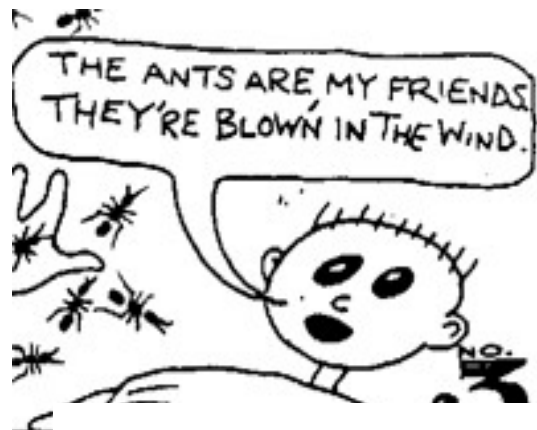

Lakeside Harriette potentially Hinch Wife #6

Our very own Harriette, **Back Again**, visited Bendigo before the federal election and noticed the election van of candidate Derryn Hinch getting familiar with the neighborhood. Now **Back Again** is one of our fitter harriettes, so she took to her heels, chasing the van down the road to catch her man – which she most ably did. When she struck her Warrior 2 pose at him, he just couldn't refuse her. So after a bit of casual chatting together, **Back Again** took the opportunity of having her photo taken with Mr Hinch, and then proudly shared it with her morning running friends the next morning.

Now, Mr Hinch is once-again-single and apparently searching for a new Mrs Hinch, having worn out Jackie and the other four previous Mrs Hinchs. He's hoping to wed number six before he dies from hair colour poisoning. We reckon our **Back Again** might be in the running to be that lucky number **SIX**.

Mr Hinch (or should we say "**Our Derryn**") is now running for the south east metropolitan seat in the Victorian election which represents Brighton - **right where Back Again lives**. He can run with Lakeside! And he's only been to jail three times. What a catch! can feel a hash wedding coming on!

HASH BOY LOVES THE POWER OF WORDS

... and the hairs ... and the hares

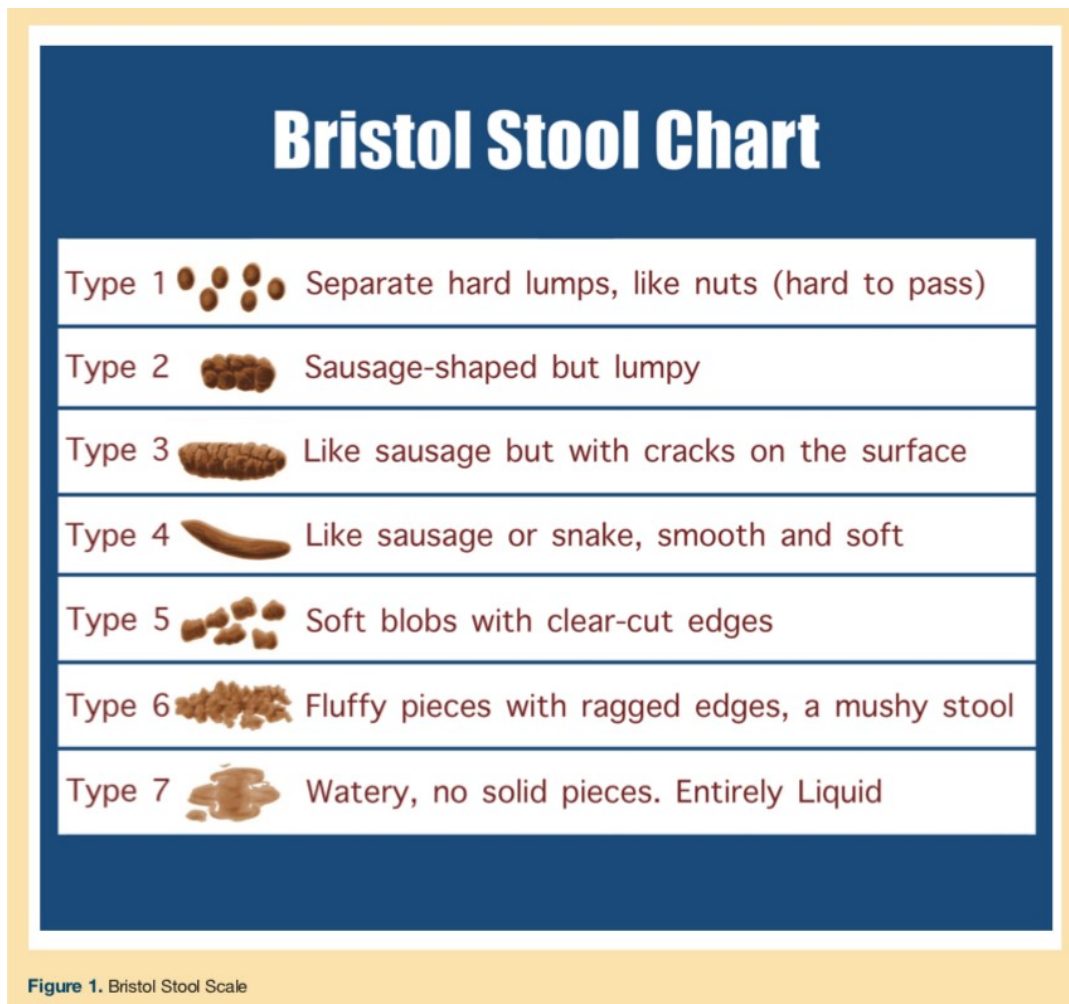

We acknowledge the hares – for without their fine work we would have no reason to run. Particular gratitude to those who volunteered their services without undue coercion.

From the Lakeside hash traditions ...

“At regular intervals, every hasher is asked to set a run by the Trailmaster. Since being a Hare is a great honour, refusal is neither anticipated nor accepted. If the run is considered passably good the Hares will be awarded a score and a Down Down, if the run is considered to be below standard for Lakeside HHH the Hares will be awarded a negative score and a Down Down with shame (i.e. on their knees)”

We have been most fortunate to not have any “below standard” runs this year – and as a further refinement, perhaps any “below par” runs could be classified according to the Bristol Stool Chart – A diagnostic tool from the Bristol Royal Infirmary developed as a clinical assessment. For instance “... this weeks run was a real type 6”

Even if it doesn’t catch on as a run classifier, I include it as a handy self-assessment device for your personal use.
